

VP 70/90

exterior venetian blind

SunProject™

SunProject VP 70/90 exterior venetian blinds are extremely versatile and offer a number of features and advantages:

- Optimization of lighting and shading as slats can tilt in any position based on the sun's angle
- Ideal solution in managing thermal gain and glare while providing natural daylight
- They can be retracted when shading is not required
- Optional perforated slats which allow and maintain exterior views when the blinds are fully closed
- Wide selection of slat finishes to compliment any architectural detail
- Integration of intelligent controls makes the VP 70/90 an effective solution and contributes to the development of Dynamic Façade
- Privacy protection when required
- Safety standards according to EN13659
